

MEETING REPORT 3

Team Name: Group 5 **Date of Meeting:** 18/04/2022

Start Time: 15:00 **End Time:** 16:30 **Meeting Location:** Tirane

Moderator: Aldi Filopati **Recorder:** Aldi Filopati

Other Members Present: Amardo Osmani , Frei Kacabani, Kev Ciko, Evjo Serica, Klaudio Gorka

Members Absent: None

Topics Discussed:

- The name of the system.
- The function that will be executed in the E-shop
- What function will be used by the person that is going to use the application as an employee.
- What overall function and what specific function will the admin have.

Decisions Made:

- The name of the system will be “Clifford Systems”

E-Shop

- Will contain the list of the products that the user will sell, a brief history of the user production, image of the products and orders that the distributor using the E shop will make

Employee (The main user)

- The employee functions are as : he collects the information about the distributors, he can register new distributors that want to work with the company, he can view the transaction between the factory and the distributors and also can view the status of the magazine.
- The employee will input the daily production of the factory, will view the supplying magazine status which in case that are not enough to fulfill the order he can order new supply for production.
- He can input the dimension of box for the new product so that we can generate an idea of the product that the magazine can store.

Admin

- Admin can calculate the orders that are inputted by all the distributors, He can add new employees that will work in different shifts.
- He can manage the employees and also look at the distributors that are working with the company.

- He can delete distributors when they will no longer work with the company.

Tasks Assigned:

- Start the general idea of the E-shop
- Find a suitable form of the database that we will use
- Find the program that we will use to develop our app
- Try to make a sample database for the factory
- To look an over view of the function that we have discussed and see if we can add or improve any of them to better fit the positions that we have created.

Time, Place, and Agenda for Next Meeting:

On next Monday : 25/04/2022

Time : 15:00 – 16:30

Place : Tirane

Agenda : We will discuss what we have learned for the database and try to put an overall for of how the database will work so that it can fulfill the functions that we need to execute for our program.
