

MEETING REPORT 2

Team Name: Group 5 Date of Meeting: 12/04/2022

Start Time: 15:00 End Time: 16:30 Meeting Location: Tirane

Moderator: Aldi Filopati Recorder: Aldi Filopati

Other Members Present: Amardo Osmani , Frei Kacabani, Kev Ciko, Evjo Serica, Klaudio Gorka

Members Absent: None

Topics Discussed:

- How will the application work?
- Programming languages to be used.
- Who will use the application?
- Who are the clients and admin?

Decisions Made:

- Django (Python) for Back-end
- HTML/CSS/JS for Front-end
- Firebase / MongoDB for Database
- Application will be used by Sweets production factory (also the admin)
- Clients will be companies that are interested in buying Sweets
- Factory will take orders from clients, it will schedule when the order will be finished based on daily production, stock and problems that can be delay them.

Tasks Assigned:

- Learn how restful API work in Django
- Find a suitable template for the front-end
- Learn how document-based databases work
- Try to make a sample database for the factory
- Make a more appropriate list of functions that our application is going to use
